

How to make the most of becoming a Chartered Chemist

# How to succeed as a CChem mentor

# How to succeed as a CChem mentor

As a CChem mentor, you are a valuable part of the CChem process. Here are some ideas to help you get the most from your mentorship.

- ↳ Planning your CChem application
- ↳ How to pick an effective CChem mentor
- ↳ **How to succeed as a CChem mentor**
- ↳ Making time for CChem
- ↳ Self-reflecting for the CChem statements
- ↳ Ideas for members in academia
- ↳ How to succeed as a CChem mentee

## Your role as a CChem mentor

- Meet **regularly** with your mentee
- Encourage **self-reflection** through discussion
- Maintain **confidentiality**
- Treat your mentee **respectfully** and **supportively**
- Help your mentee identify suitable **opportunities**
- Provide supportive **comments**
- **Make the first peer recommendation for CChem**

## Help and resources

- Guidance for mentees
- Role and responsibilities of a mentor
- Members' area

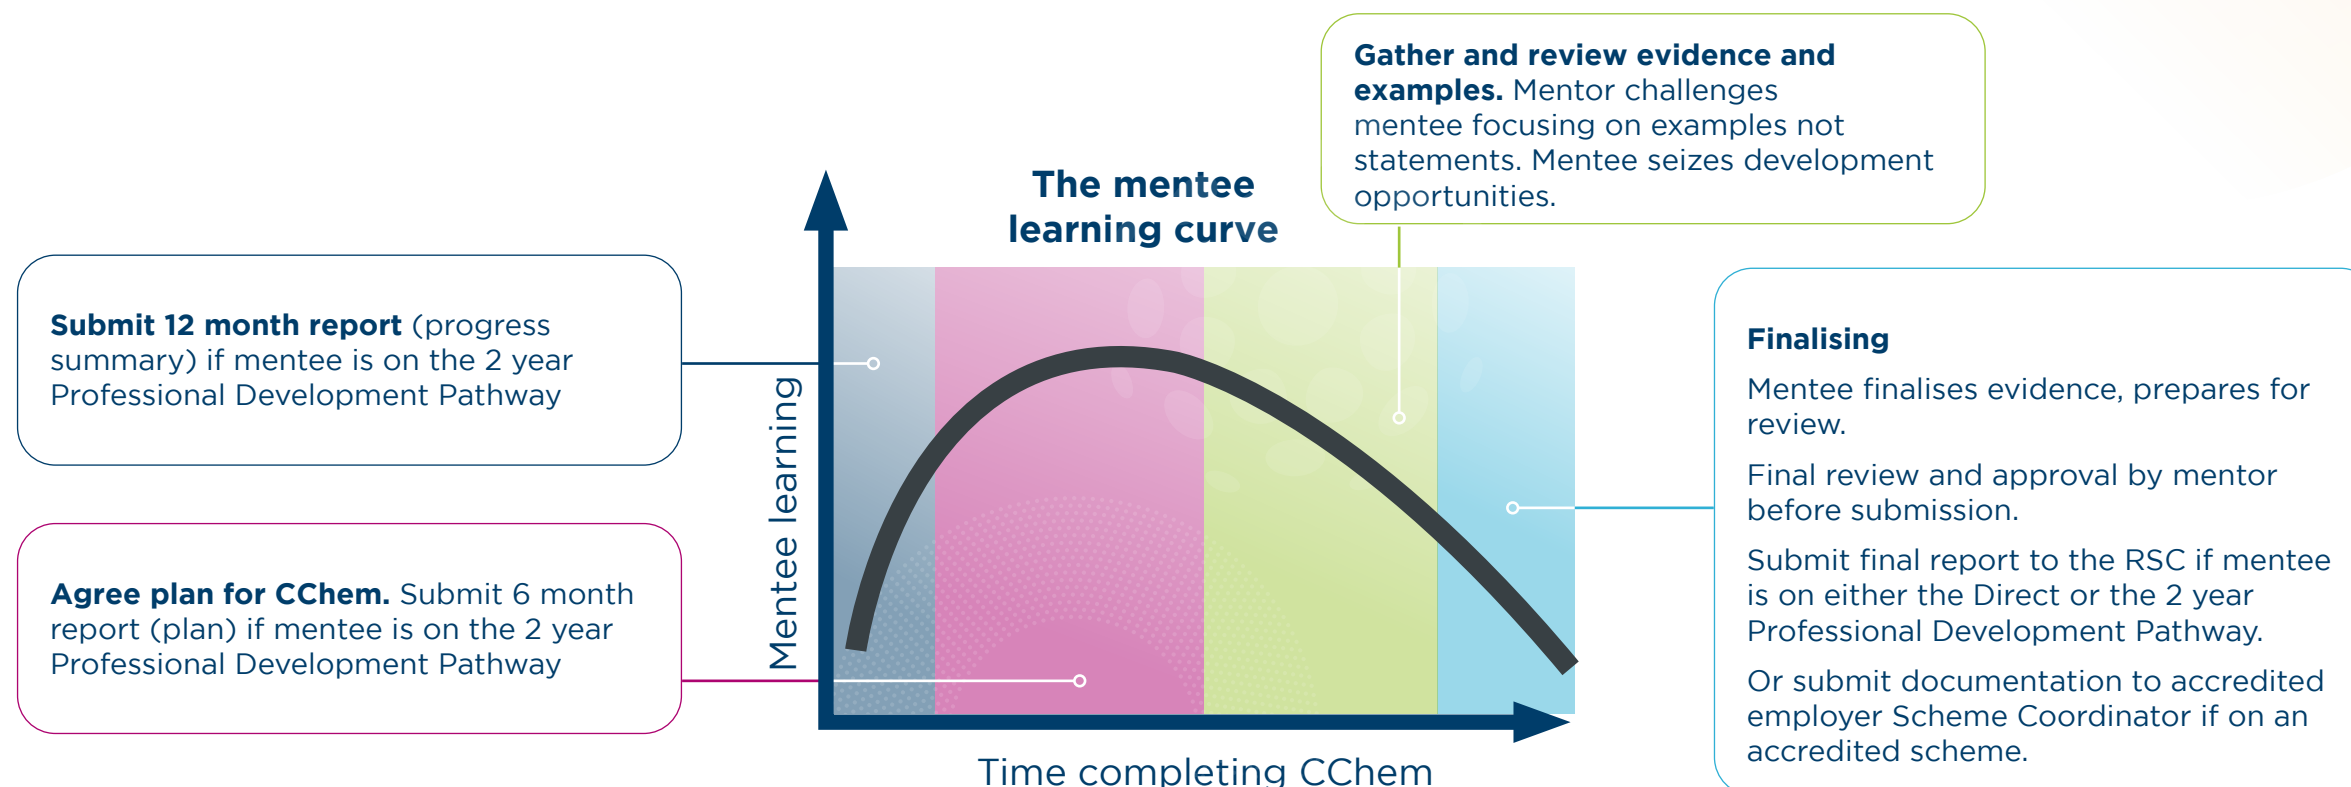

**For consultations, as well as email or phone support from our staff, please get in touch.**

# How to succeed as a CChem mentor

Remember to review your mentee's choice for suitable examples (i.e. the scenario) they wish to use against the attributes regularly and earlier on in their journey.

↳ How to succeed as a CChem mentee

## Your first meeting

Arrange it together. Face to face or over video call is best.

**Before the meeting**, reflect on what CChem means to you and remind yourself of the CChem attributes.

In the meeting:

- agree how often you will meet
- arrange when you will meet
- discuss how your mentee will use the meetings
- firm up your mentee's goals
- write down these goals
- plan your next meeting
- agree what your mentee will achieve for the next meeting (for example, a plan of action)

## Coaching questions

Use non-directive, open-style questions.

Ask your mentee:

- What did you do? What was the goal?
- What were your options? Why did you choose to do it that way?
- What was behind your motivations?
- How did you achieve your goals?
- What did you learn from this outcome?
- Are there other examples? Are they similar or different? How?
- How does this fit against this attribute?
- Who did your actions impact and why?

## TOP TIP!

Asking your mentee how they pass information on to others, or how they update others, is a good way of identifying sources of primary evidence for their portfolio.
